

FALCONWOOD INC.

About Falconwood, Inc:

Falconwood, Inc. is a small, woman/veteran-owned business providing executive level consultants and programmatic support to Department of Defense (DoD) Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities, and Cyber Security policy and engineering.

We have an immediate opening for an **Agile Specialist** to provide support to the Global Combat Support System-Marine Corps (GCSS-MC), PMW 230, who supports the modernization and sustainment of Marine Corps supply and maintenance functions through the development of a web-based common user interface that provides an integrated and distributed logistics capability enabling leaders to effectively plan, manage, execute, and monitor logistics operations from both a garrison and a forward deployed environment.

Duty Location:

Stafford, VA

**Minimal travel may be required.*

The Agile Specialist will:

- Provide guidance in Agile, Scrum, and SAlFe; lead Agile delivery teams to deliver value consistently.
- Work with the Government and development teams to institute and integrate Agile framework concepts into Release anagement activities and processes.
- Plan and facilitate Program Increment planning.
- Facilitate Scrum meetings; generate key metrics (e.g., burn-down, burn-up charts, flow diagrams).
- Plan, coordinate, and execute Governance boards, such as Change Advisory Board (CAB) and Change Control Board.
- Define the Services and underpinning Service Assets and Configuration Items (CIs); implement/maintain a Configuration Management process for maintaining data as aligned to services within the Configuration Management Database (CMDB).
- Manage Request for Change (RFC) processes, standardize processes, and identify, prioritize, plan, schedule, and monitor implementation.

FALCONWOOD INC.

Required:

- **Active Secret Clearance**
- Bachelor's degree in Computer Science, Engineering, or related discipline
- 4+ years' experience leading Agile teams as Scrum Master or Product Owner
- Experience with Agile software development methodology, specifically SAFe
- Skilled in project management and engineering technical management techniques, principles, and practices
- Skilled in project management and engineering technical management techniques, principles, and practices
- Ability to work independently and within a technical team environment with geographically dispersed team members
- Ability to multi-task in a fast-paced environment
- Excellent oral and written communication skills
- Experience designing and implementing a cross-platform CM framework
- Experience with forming and/or running Governance Boards

Desired:

- ITIL Foundations certification
- Project Management Professional certification
- Experience supporting DoD acquisition programs
