

# FALCONWOOD INC.

## **About Falconwood, Inc:**

Falconwood, Inc. is a woman/veteran-owned, small business providing executive level consultants and programmatic support to Department of Defense Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities and Information Assurance policy and engineering.

We have an immediate opening for **Information System Security Engineer (ISSE) - Vulnerability Management Analyst (VMA)** to support,

## **Duty Locations:**

New Orleans, LA

## **The Information System Security Engineer (ISSE) - Vulnerability Management Analyst (VMA) will:**

Work closely with the Cybersecurity Compliance Team to support multiple programs through the vulnerability management and Risk Management Framework (RMF) process.

Be responsible for maintaining and executing functions which includes, but not limited, to ACAS & Fortify Source Code scans analysis, STIG Validation in support of DISA, DoD and DON guidelines and proactive vulnerability detection.

Be responsible for composing essential documentation (procedures, compliance and remediation reports, continuous monitoring, etc.), providing analysis and metrics on vulnerabilities, and driving remediation of vulnerabilities throughout the organization.

## **Qualifications and Requirements:**

- 3+ Years of Information Security Experience, working with vulnerability management tools
- Demonstrated knowledge of Systems Administration/Engineering with proficiency in analyzing systems designs with a systems security mindset
- Strong knowledge of threats and vulnerabilities associated with cloud and on-premise network security and Computer Network Defense
- Demonstrated ability to work effectively in an ambiguous environment
- Strong oral and written communications skills
- Strong analytical and problem-solving skills and proactive thinking skills
- High-level familiarity with Vulnerability Management tools such as ACAS, SCAP, STIG Viewer, Vulnerator and Fortify
- Basic to Moderate familiarity with Cybersecurity tools such as Splunk, HBSS and Solarwinds is a plus
- Moderate to high-level familiarity with RMF input and validation tools such as eMass

# FALCONWOOD INC.

- Basic level familiarity with DoD, DON, and other Cyber Security Regulatory Compliance bodies
- Understanding of how to classify and prioritize the risk of new vulnerabilities based on the operating environment
- Ability to develop and maintain metrics and reports on vulnerability findings and remediation compliance
- Facilitate proactive remediation or mitigation of new vulnerabilities by collecting information from threat and vulnerability feeds, analyzing the impact/applicability to our environment and communicating applicable vulnerabilities and recommended remediation actions to the impacted programs
- Provide technical support to system and technology owners to propose mitigation and remediation solutions
- Assist with routine compliance and audit functions to ensure regulatory scanning requirements are satisfied
- Document and report on processes and procedures
- Provide input to leadership for enhancing the vulnerability management strategy
- Stay current on security industry trends, attack techniques, mitigation techniques, security technologies and new and evolving threats to the organization by attending conferences, networking with peers and other education opportunities
- Sense of urgency to address new technologies being deployed: Continuous development of infrastructure and cloud vulnerability expertise to function as subject matter expert in multiple technical or business disciplines
- Contribute to policy development, RMF package accreditations, and training requirements.
- Sec+ CE certifications
- Must have a minimum of a Secret Clearance to begin work

## **Desired Skills:**

The ideal candidate has a background in Systems Administration or Systems Engineering; has a strong systems security mindset and is very detailed oriented with strong written and oral communication skills.
