

# FALCONWOOD INC.

## **About Falconwood, Inc:**

Falconwood, Inc. is a small, woman/veteran-owned business providing executive level consultants and programmatic support to Department of Defense (DoD) Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities and Information Assurance policy and engineering.

We have an immediate opening for a **Network Engineer (JIE/JRSS SME Support)**. The Network Engineer will provide strategic recommendations and analyze requirements in the form of white papers, Business Case Analysis (BCA), technology and business roadmaps, authoring and editing Statement of Objectives (SOOs) to the vendor, and by engaging in Integrated Product Teams (IPTs) and Technical Exchange Meetings (TEMs) as required by the Program Office. Provide technical planning and support for various strategic initiatives such as JIE/JRSS, IPN Security Stacks, Cloud Access Points, Boundary Peering with DISA, JIE Multi-Protocol Label Switching (MPLS) transport and Joint Management Systems (JMS). Additionally, the Systems engineer engages with industry to create strategies for evolving the services and delivery of HW/SW products to keep pace with Industry and to best meet the need of the Navy warfighter. Demonstrate strategic planning, analytical thinking, statistical expertise and forecasting methods of proficiency. Attend Strategy forums to solicit input and review of PMW 205 Service and Technical Strategies.

## **Duty Location:**

Washington, D.C.

## **Travel Required:**

Occasional Travel Required

## **The Network Engineer:**

1. Working knowledge and understanding of network technologies
  - BAN/LAN/WAN, VoIP, VTC, WAN Acceleration, VLAN, DMZ, Cisco IOS, WLAN, MPLS, QOS, NAT
