

FALCONWOOD INC.

About Falconwood, Inc:

Falconwood, Inc. (FWI), with headquarters located in Arlington, Virginia and offices in San Diego, California; Norfolk, Virginia; and Charleston, South Carolina, is a veteran, woman-owned, small business management and technology consulting firm specializing in systems engineering, program and project management, process management, cyber security, and certification and accreditation (C&A). We support the total lifecycle of Information Technology systems and applications.

We have an immediate opening for a **Senior Engineer Cloud** expert familiar with Department of Defense IT environment. If you want to be part of a dynamic team and want to provide yourself with a daily challenge, this job is for you.

Job Description

The **Senior Engineer Cloud** expert will support a major Department of the Navy enterprise-wide Information Systems transformation effort. You will participate in multiple technical teams to assess the current state of the legacy systems, evaluate and document recommendations for the future state for the transformation of legacy systems to cloud hosted systems. The ideal candidate will be someone who is looking for continual growth, can think strategically. This individual will be working with the Operations Managers, Software Architects, Software Developers, Infrastructure Engineers, and Security Analysts to prepare for the migration of legacy systems to a large complex, large-scale cloud environment. The Cloud engineer will participate in managing the implementation of cloud infrastructure solutions with an understanding of cutting-edge technologies including the latest developments in defined data centers and automation technologies.
