

FALCONWOOD INC.

About Falconwood, Inc:

Falconwood, Inc. is a small, woman/veteran-owned business providing executive level consultants and programmatic support to Department of Defense (DoD) Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities and Information Assurance policy and engineering.

We have an immediate opening for a **Senior Systems Engineer (BMC Remedy SME)**.

Duty Location:

Crystal City, VA Norfolk, VA San Diego, CA

**Minimal travel may be required.*

The Senior Systems Engineer (BMC Remedy SME) will:

Serve as the subject matter expert for BMC Remedy technical policy development, and strategic planning in support of the NESD Cloud Migration effort. They will support the preparation and conduct of Engineering Analysis materials and events as scheduled by PMW 250, to include: development and coordination with the appropriate points of contact, review all required engineering artifacts, provide engineering and Remedy expertise and guidance during document development, and assist the PMW 250 Technical Director in presentation of EA events, and support all EA activities associated with system changes through the lifecycle of the Project. This includes evaluation of various projects and/or related systems to provide data upon which to base a decision in the Enterprise Systems & Services provided test facility. The emphasis will be on evaluating system/subsystem performance as well as conduct of overall system, integration testing of proposed development models. The Sr. Systems Engineer will assist with project engineering, implementation, testing, and issue resolution as project requirements dictate, to include: requirements review, functional and process design (including scenario and flow mapping), prototyping, and defining support/sustainability procedures. The Sr. Systems Engineer (BMC Remedy SME) will perform technical contract support within the timeframe and formats assigned, meet the quality and technical requirements of the customer, and all submitted work shall be accurate and complete.

Qualifications and Education Requirements:

- 10+ years experience with BMC Remedy engineering and implementation (DoN network systems and services preferred, minimum 3+ years on large-scale IT projects)
- 10+ years experience supporting large-scale IT projects

FALCONWOOD INC.

- ITIL v3 Foundation Certified (Preferred)
- Amazon Web Services (AWS) Certified Professional (Preferred)
- Minimum of 4 full system development life cycle implementations
- Experience leading teams that performed, designed, and validated application architecture frameworks and supporting functionality
- Bachelor's Degree in Systems Engineering/Computer Science (or related field) from an accredited university, or equivalent work experience (Master's Degree Preferred)
- DAU Acquisition 101 (Preferred)

Preferred Skills:

- Highly experienced in lifecycle systems engineering
- Understanding of AWS Infrastructure as a Service (IaaS)
- Understanding of DoN Engineering Assessment requirements
- Strong coordination, organization, teaming, and collaboration skills
- Ability to work under pressure and time constraints
- Experience in large, geographically disparate IT environments
- Ability to work with minimal guidance and meet deadlines on schedule
- Ability to work independently and prioritize tasking effectively
- Strong problem solving and analytical skills with the ability to learn information quickly
- Familiarity with DoN command organization and IT Networks, Systems & Services
- Active SECRET clearance
