

FALCONWOOD INC.

About Falconwood, Inc:

Falconwood, Inc. is a small, woman/veteran-owned business providing executive level consultants and programmatic support to Department of Defense (DoD) Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities and Information Assurance policy and engineering.

We have an immediate opening for a **ServiceNow Application Developer** to support PMW 270.

Duty Location:

San Diego, CA

*Minimal travel may be required.

The **ServiceNow Application Developer**:

- Design, test and debug ServiceNow client-side and server-side scripts, manage applications, implement application security, and automate applications.
- Work with internal and external stakeholders as needed to transform operational and Program Office needs into technical and design requirements to be applied within ServiceNow
- Maintain and improve on usability, user interface and design of existing client ServiceNow platform
- Provide recommendations for the ServiceNow portal design and development according to best practices
- Participate in planning/review meetings as required
- Participate in internal company Integrated Product Team to improve collaboration and impart knowledge across varying Program Office support tasks

Qualifications and Education Requirements:

- Minimum SECRET clearance
- Bachelor's degree in Computer Science, or related field, or 3 years' equivalent work experience
- Certified ServiceNow Application Developer (CAD)
- Experience in JavaScript, CSS, and AJAX

FALCONWOOD INC.

- Experience with Client and Server scripting and APIs
- Sharp troubleshooting faculties, deductive reasoning, and careful attention to detail
- Ability to both work in a fast paced and dynamic environment on short term projects and the ability to work on longer term projects requiring extended planning time

Preferred Skills:

- Experience as a ServiceNow System Administrator, or at minimum general experience with application development and system administration
- Knowledge of ITIL framework
- Familiarity with Department of Navy (DON) command organization and IT infrastructure
- Familiarity with general Cyber Security Certification and Accreditation practices
