

FALCONWOOD INC.

About Falconwood, Inc:

Falconwood, Inc. is a small, woman/veteran-owned business providing executive level consultants and programmatic support to Department of Defense (DoD) Information Technology (IT) initiatives and programs.

We provide expert consultation on a diverse range of IT subjects focusing on acquisition strategy, implementation activities and Information Assurance policy and engineering.

We have an immediate opening for a **Web Developer** supporting USFF NMCI Enterprise Support Team (NEST)

Duty Location:

Norfolk

The Web Developer will:

- Work with key Navy stakeholders and users to identify and translate program requirements into web-based dashboards.
- Serve as front-end web development support leveraging JavaScript and associated frameworks to deliver data management, integration, and visualization applications to help solve key client challenges.
- Duplicate existing Microsoft Excel/Access solutions in a more robust server/database model.
- Document architecture and business rules of these products to ensure sustainability by a third-party.
- Integrate web solutions with SharePoint portals and report capabilities.

Qualifications and Education Requirements:

- SECRET Clearance
- High School Diploma or GED
- 2+ years of experience with front-end JavaScript development
- 2+ experience with modern HTML and CSS frameworks
- Experience with the software development lifecycle
- Experience with MSSQL, ASP.NET development
- Experience with SharePoint
- Experience with Microsoft Access and Excel
- Ability to translate client requirements into viable solutions which accommodate changing mission drivers
- Ability to work in a highly dynamic, fast-paced environment with aggressive project timelines and continual client delivery

FALCONWOOD INC.

- Ability to think independently with minimal oversight, as well as demonstrate exceptional written and oral communications skills
- Excellent customer/client management skills and techniques – internal and external

Preferred Skills:

- Experience with JavaScript libraries such as jQuery, D3, and DataTables
- Experience with development frameworks such as jQuery-UI and Bootstrap
- Knowledge of JIRA, Confluence, Git, and GitHub/GitLab
- Practical experience with Agile methodologies
